

#### Development Resources | **AB Circle Introduces Circle APDU Tool for Streamlined Smart Card Communication**

AB Circle has released the Circle APDU Tool, a reliable software utility for seamless interaction with smart cards and all standard smart card readers. The tool facilitates sending and receiving APDU commands, supporting secure authentication, data exchange, and card management. Compatible with various smart card types, it offers a straightforward interface for developers. Available now at AB Circle's [Development Resources](#).

#### Products | **AB Circle Enhances reapp EV Charge Mobile App with Multilingual Support**

AB Circle upgraded its [reapp EV Charge mobile app](#) to support English, Vietnamese, Mandarin, and sparking accessibility for electric vehicle (EV) drivers worldwide. The app simplifies locating chargers, managing sessions, billing, and tracking usage. With a flexible design to add more languages based on customer needs, AB Circle promotes inclusivity and supports global carbon-neutral goals. Download the updated app at [www.reapp-evcharge.com](http://www.reapp-evcharge.com) to power a greener, more connected future.
